Current Status

Status marked as **Approved** on 6/2/2026 at 4:30 PM

Status Description: PGE has approved your application and you have permission to build the project.

Created on 11/19/2025 at 1:34 PM (209 days ago)

Last Updated on 6/4/2026 at 8:38 AM (13 days ago)

Project Owner: **Matthew Johnson (Applicant)**

Project Summary

Queue Order NMQ-12014	Total Generating System Capacity (kW) 186.5	Storage Nameplate Energy Capacity (kWh) 0	Installation Type New System at Existing Service Location
Account 5305649643	Installation Address Line 1 18250 SW Kemmer Rd	Installation Address City Beaverton	Legacy Installer None
Applicant Last Diaz	Applicant First Brian	Co-applicant Name Last None	Co-applicant Name First None
Application Tier Tier 2	Proposed Export Capacity based on the Limiting Device, if applicable (kW AC) 60	Max Export Capacity based on the proposed system capacity (kW AC) 60	Max Export Capacity based on the entire system capacity (kW AC) 60
